

Streator RC Flyers Newsletter

Special Edition
June 2017

June 2017 Streator RC Flyers meeting will be moved up to this Wednesday the 14th and held at the flying field.

Special Thanks

To all the members who donated time and money to revitalize the flying field, looking great but not done yet.

New July product release

E-Flite X-Vert

MSRP BNF \$149.99

RTF \$199.99

The X-VERT™ VTOL gives you all the fun and versatility of a Vertical Take Off and Landing aircraft without the need for complex mechanics or fancy programming. It also makes the transition between multirotor and airplane flight as easy as flipping a switch. You can also take your flight experience to a whole different level using the optional and patent-pending FPV camera and servo-driven mechanism that transition automatically when the X-VERT does
